Giuseppe Cascone

TIMELINE

I am 28

Italian _ English

2011 -16

Liceo classico-scientifico "Don Carlo La Mura" Maturità Scientifica

Scafati (Salerno), ITALY 30/12 /1997

2016 -19

Università della Campania "Luigi Vanvitelli" Dipartimento Di Architettura e Disegno Industriale Laura triennale, L-4 Disegno

2020

Fa.Gi.Fer srl San Marzano Sul Sarno (SA) Product Designer -CAD designer Short Contract - 6 - Months

2020 -22

IAAD- Istituto di Arte Applicata e Design Master in transportation Design

2019

Architetto Della Porta Nocera Inferiore (SA) Stage - 3 Months

2022 -23

AKKODIS Multidisciplinary Designer Stage -6months

2023 -...

Pininfarina

2023

Multidisciplinary Designer AI-Specialist Stage - 7-Months

2023-2026

Junior Exterior Designer AI-Specialist Apprentishp

I joined Pininfarina as an AI Investigator, with the goal of researching and understanding how AI would impact the design field. This role gave me the opportunity to collaborate with all of the company's business units.

2025

Pininfarina Shanghai

One month in Shanghai to learn about Chinese Cardesign culture and AI integration in Chinese's industry

2026 to now

Exterior Designer Specialist AI-Specialist Permanent Contract

2024 to now IED spa

3D Modelling Professor Thesis Support

I currently serve as an Exterior Design Specialist at Pininfarina, where I also lead the coordination of AI integration initiatives across all business units.

Bio?

If you ask my father, he'll tell you I started drawing cars before I was even capable of speaking. This is interesting because it leaves space for the question of whether we are conscious of what we are — and what we are going to become.

I grew up in Southern Italy, and as far as I can remember, I always pursued this idea of becoming a car designer. Even when it seemed to be drifting away, it was still there — like something that, the more you try to sweep it aside, the more it comes back.

So here I am now, at 28 years old, working for one of the most important companies in automotive design history — a dream come true — as an exterior designer specialized in understanding what added value AI can bring to the company's workflow, while looking ahead to what's next.

Always searching for new ways of expression, because as a designer, I try to keep up with a world that's changing faster than ever.

HERE THE PORTFOLIO's STRUCTURE:

Design to be scrolled as we do on Instagram/TikTok etc.. ; everytime you get to see something different, thus to feel almost random.

MY PROCESS*

*WHEN I HAVE TIME...

**A human-centred process, where AI is a tool that opens new possibilities.
Our mind must remain the guide.
We cannot fall into the addiction of a beautiful but fake image.
A good process demands struggle.**

If you are not visualizing the portfolio from Google Drive but from Adobe Acrobat or similar, please, enable scrolling.
Thank you!

Brutalism and Deconstructivism — two ideas that, on paper, are objectively difficult to reconcile — became the driving force behind this Aston Martin concept. Rather than forcing both languages across the entire surface, I chose to apply them only in specific zones — front and rear — letting each philosophy breathe without overcrowding the overall design.

This was a Fast Project i almost feel like i was working in a Fast Food

2026

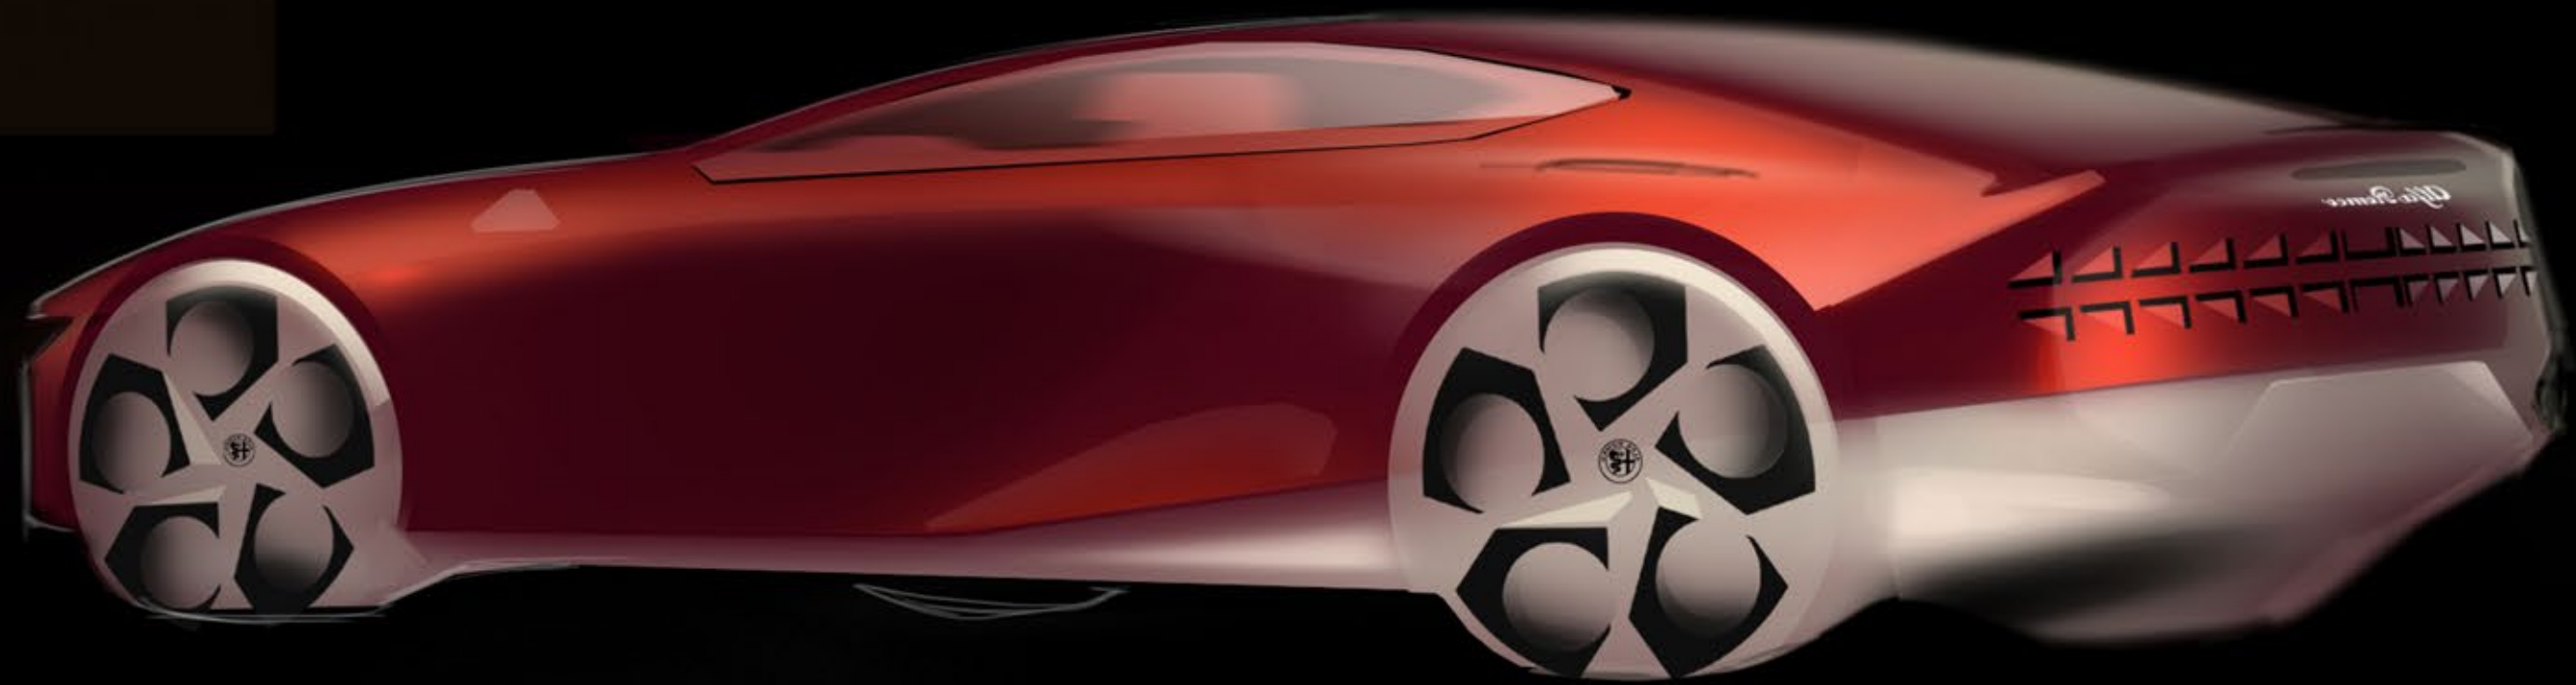

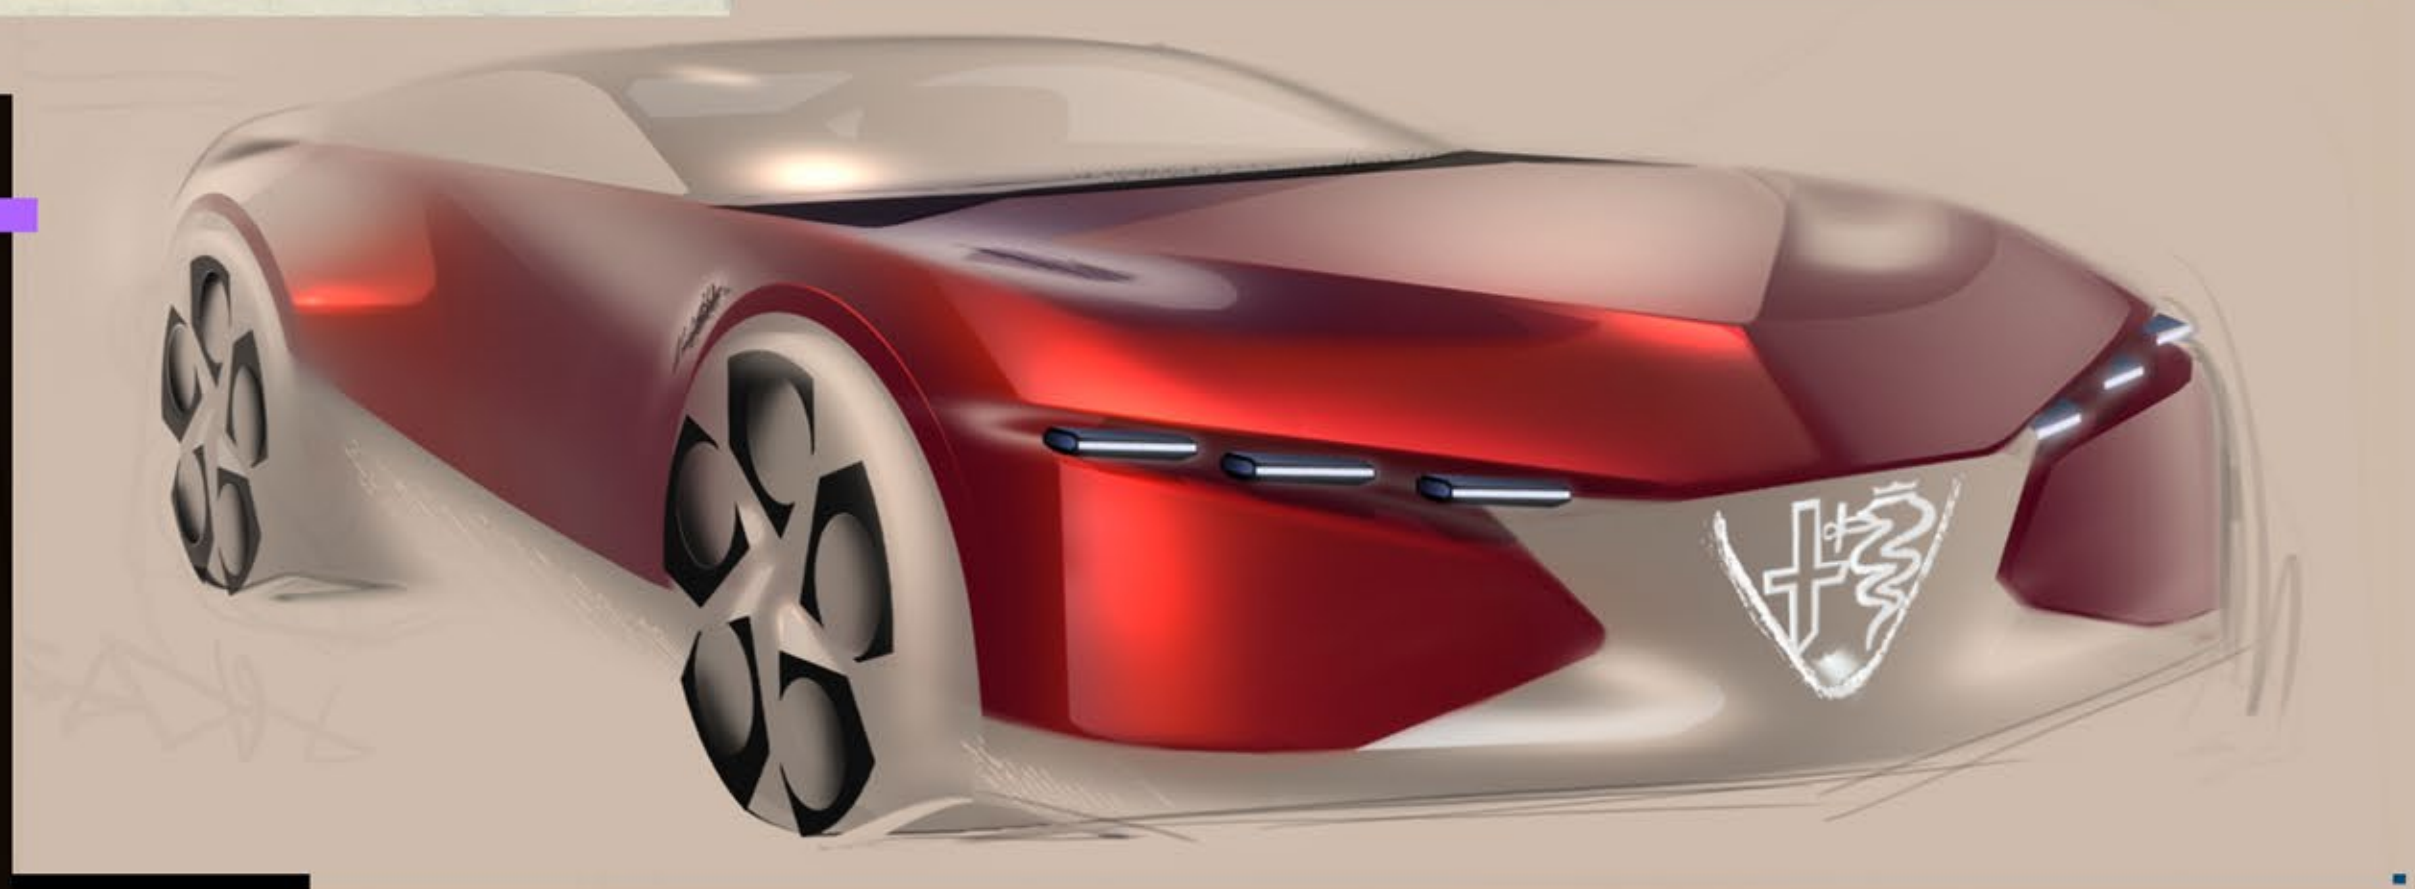

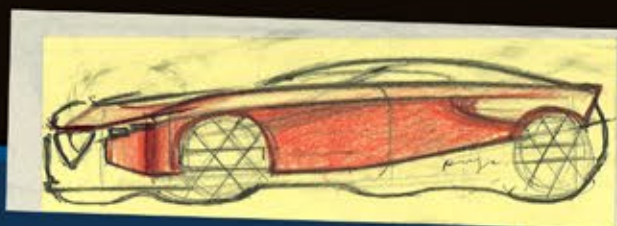

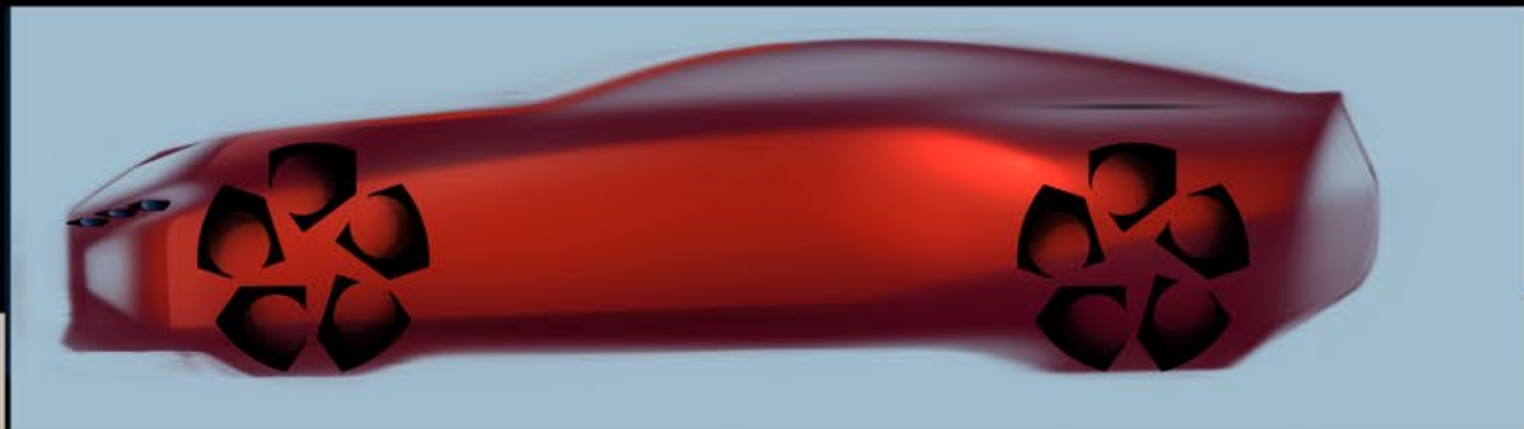

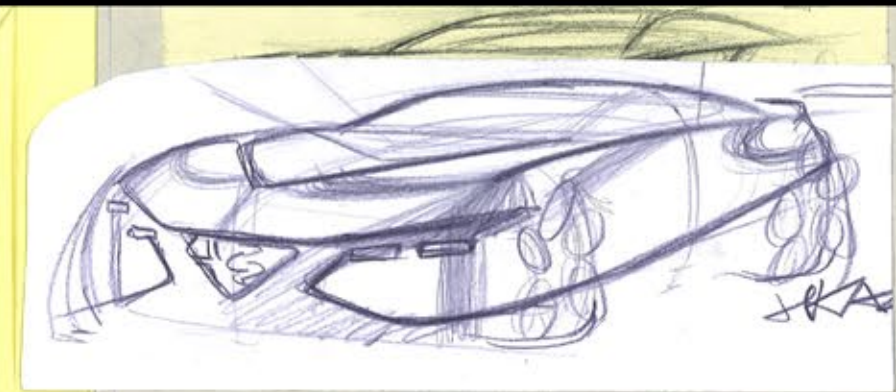

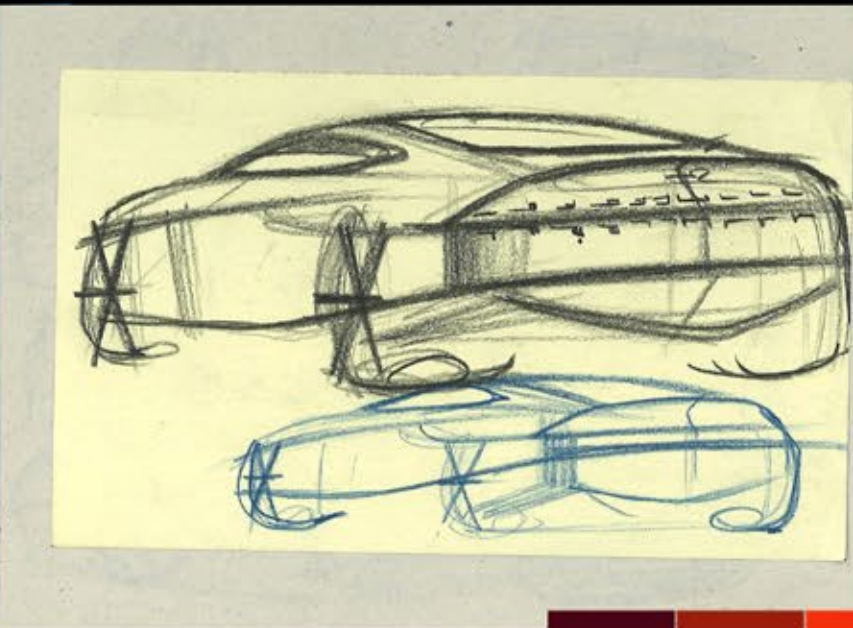

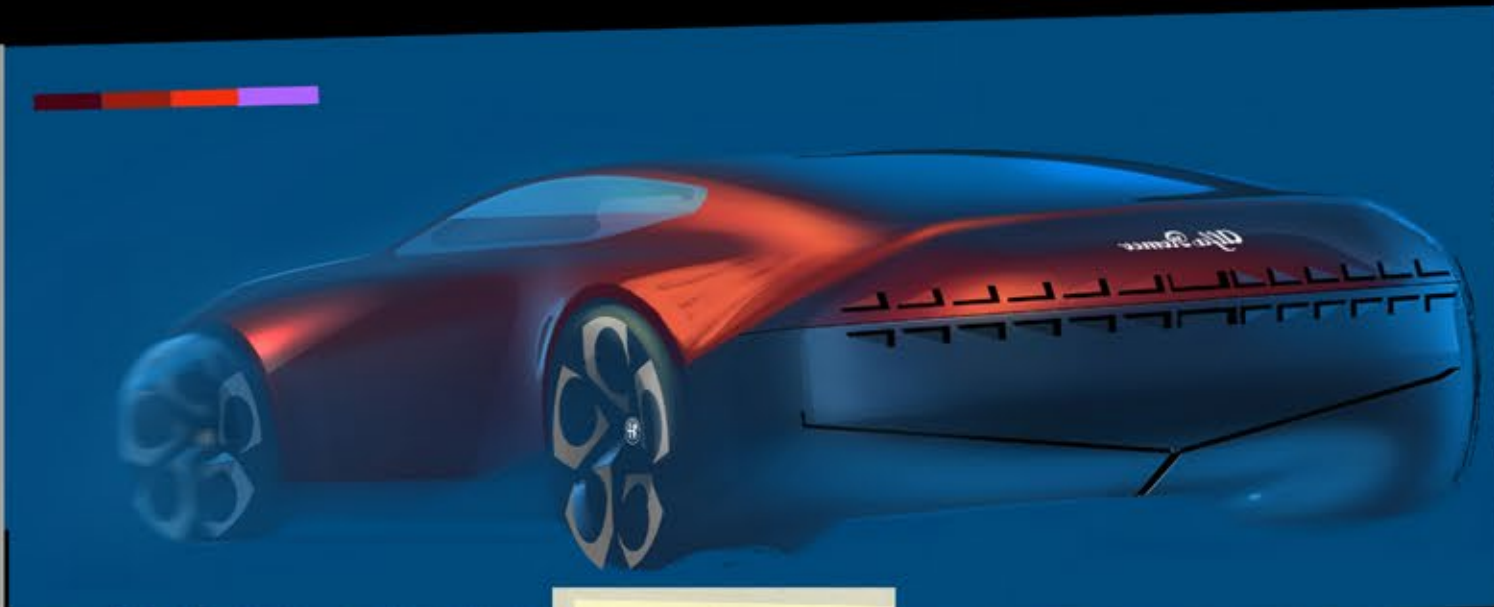

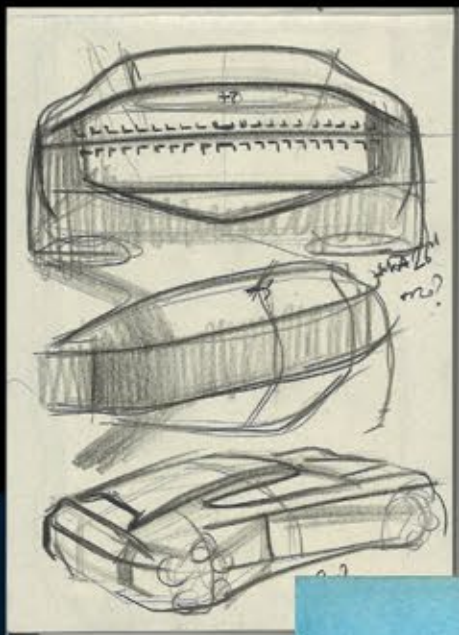

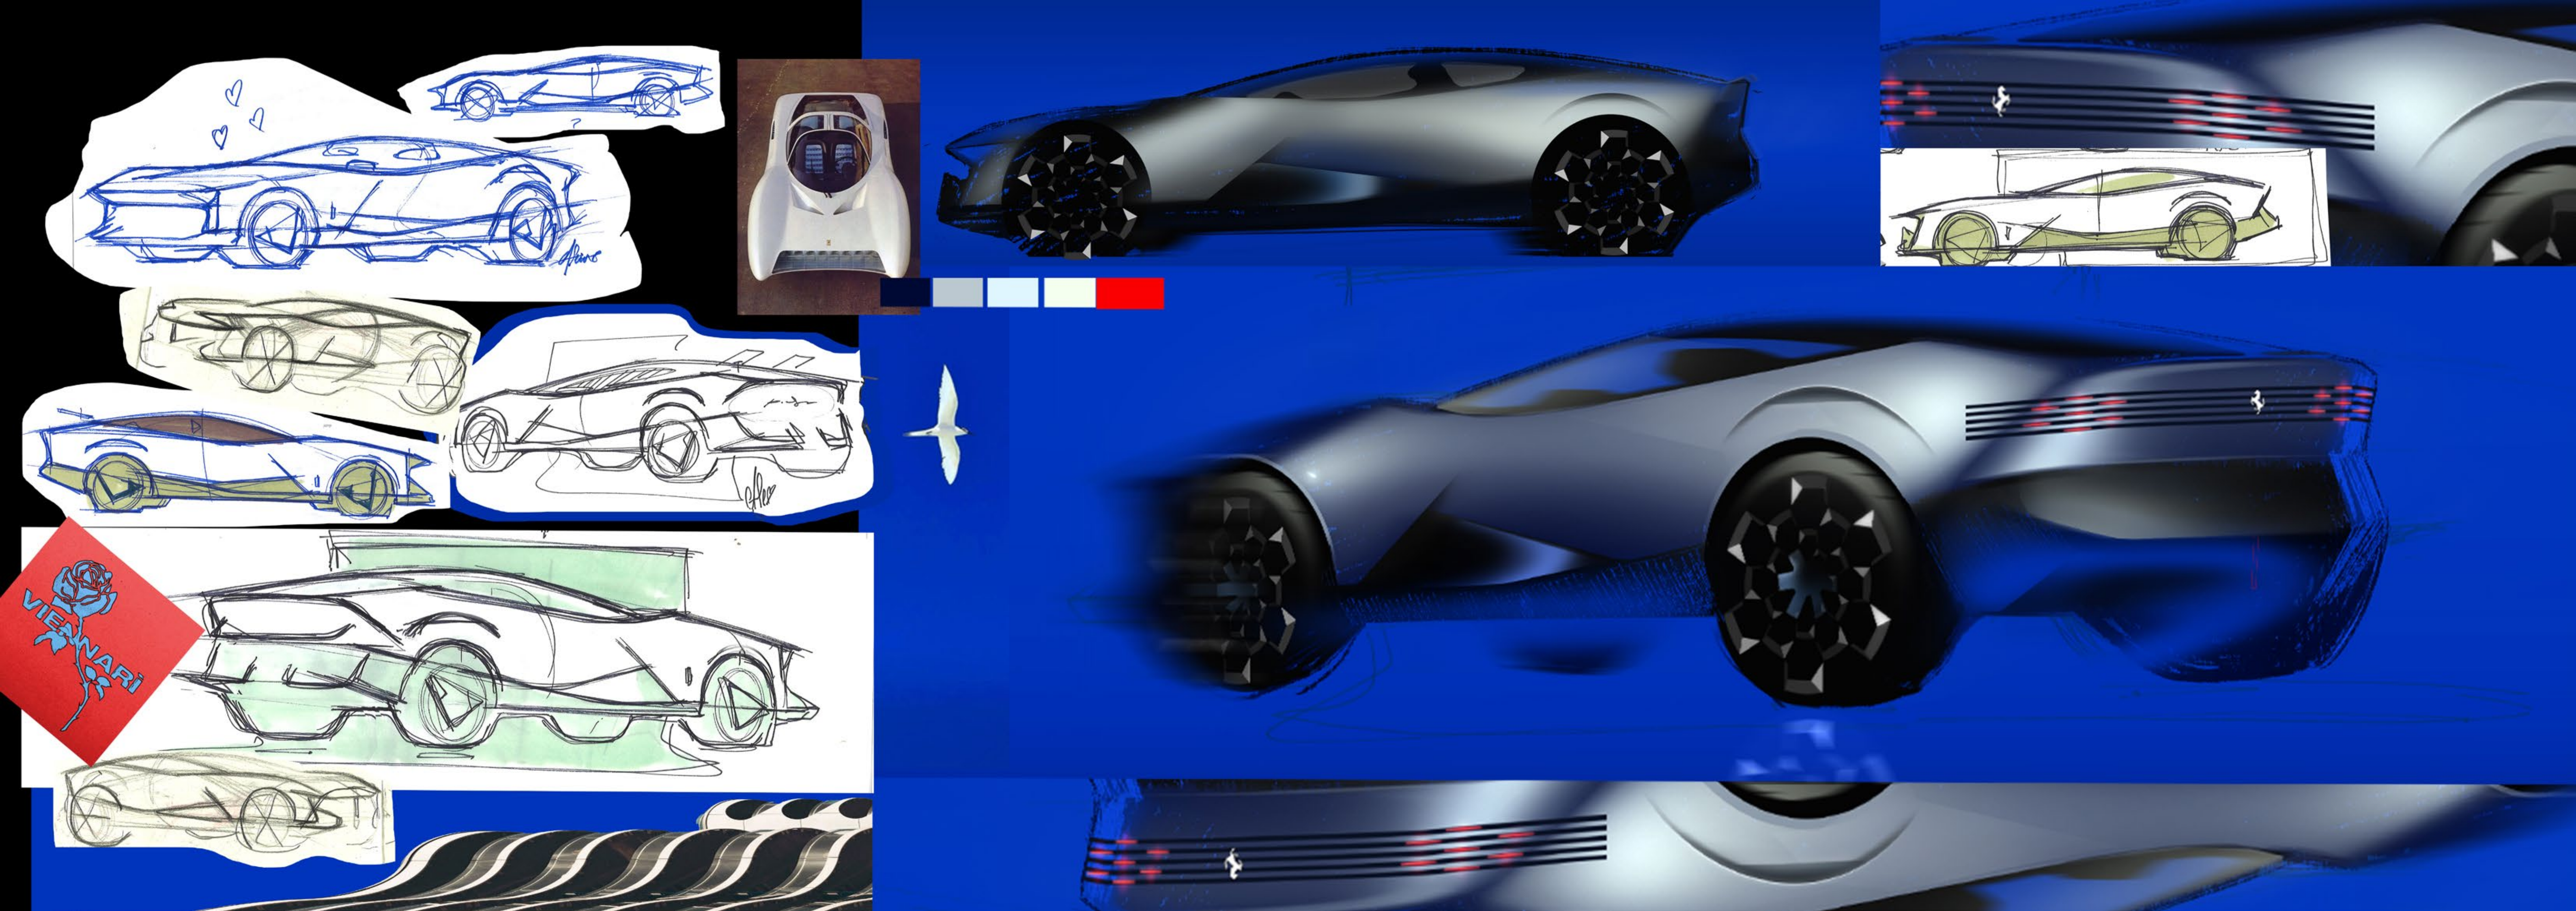

THIS PROJECT CONTAINS:

- Hot Hatchback Rally Inspired
- C-Crossover Coupè Rally Inspired
- C-Suv Longer Rally Inspired (**Proposal Selected; from sketch to C-class**)

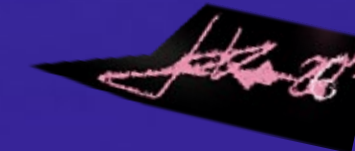

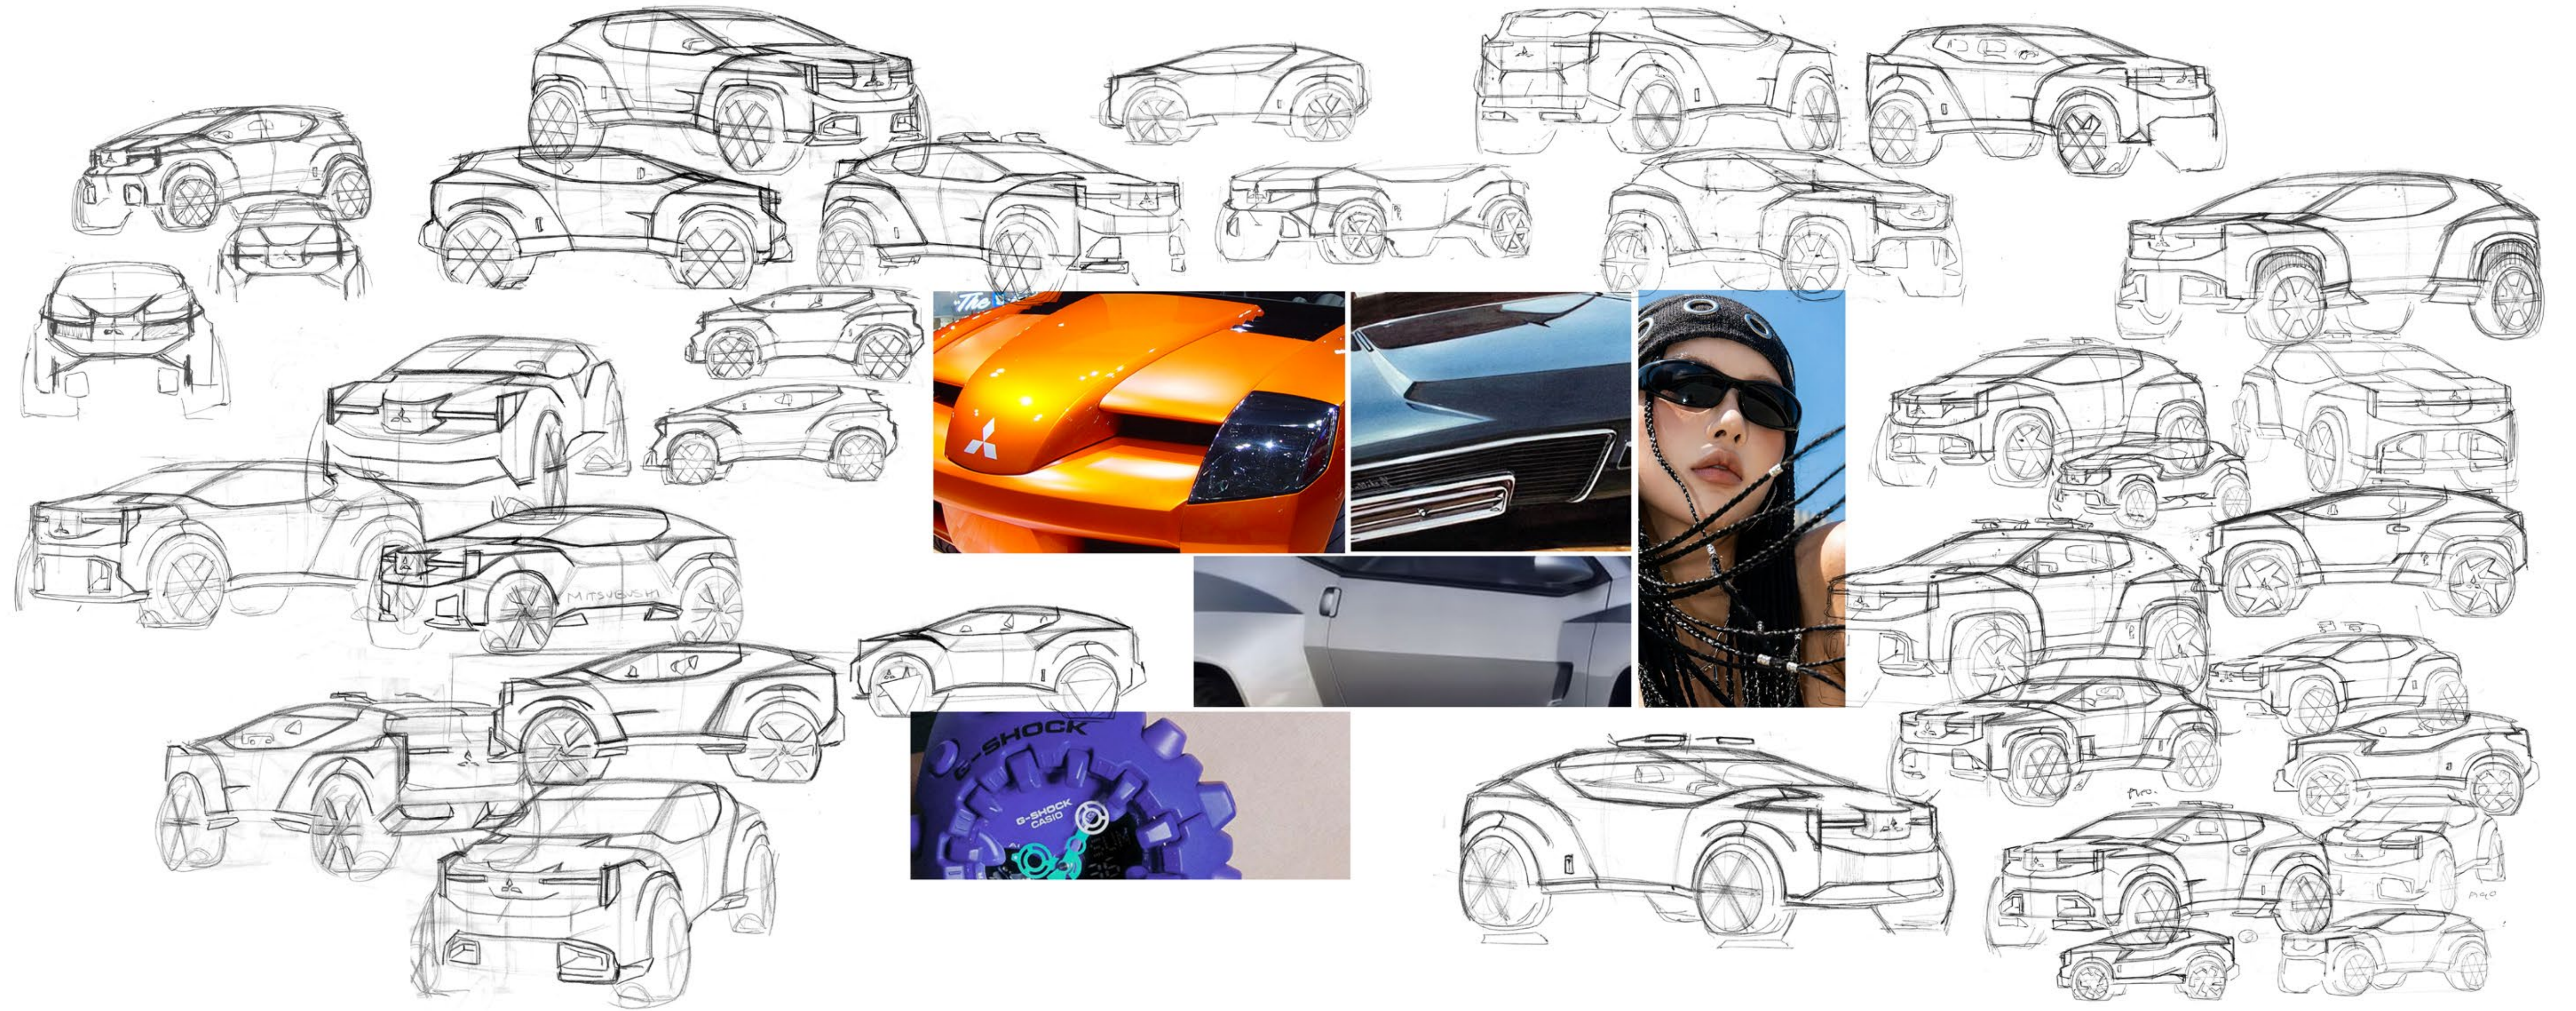

INTERVIEW TO UNLOCK

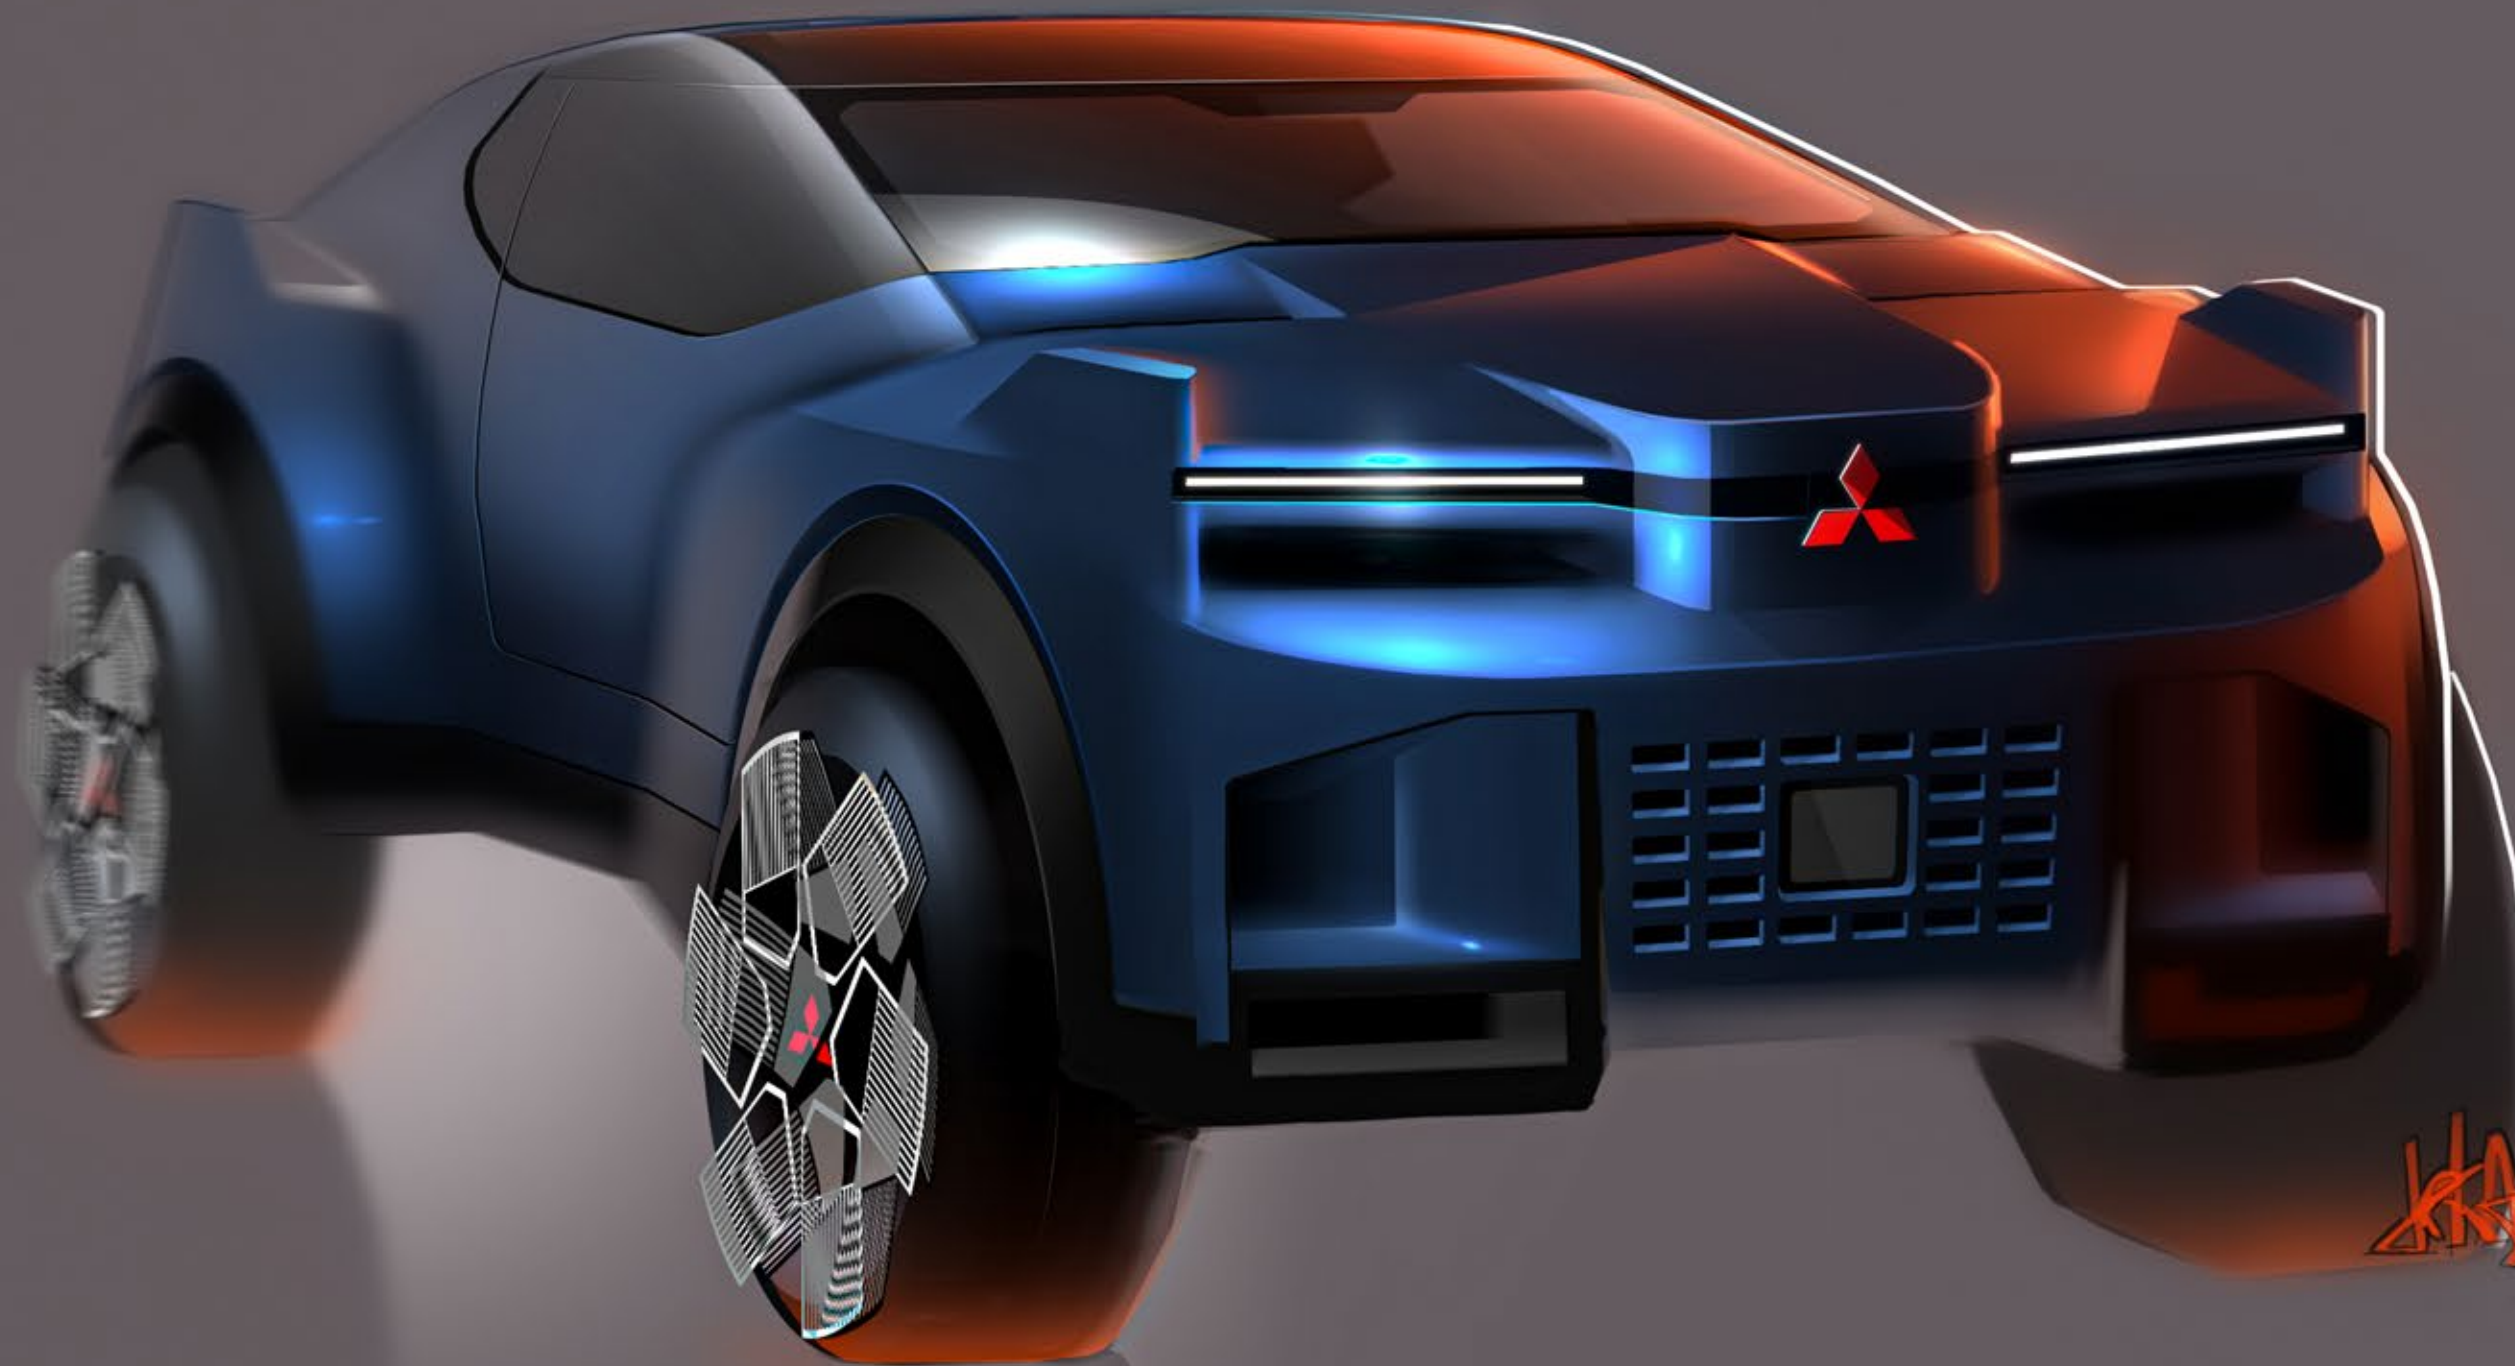

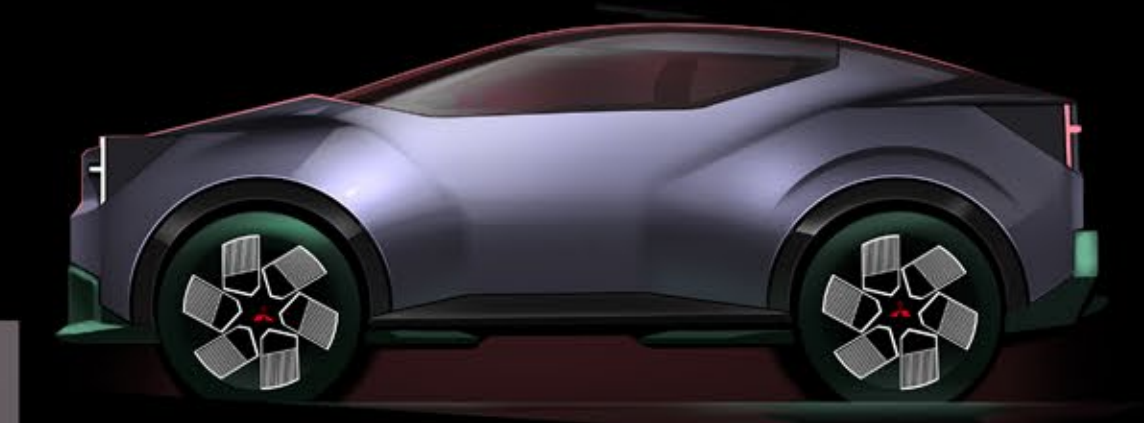

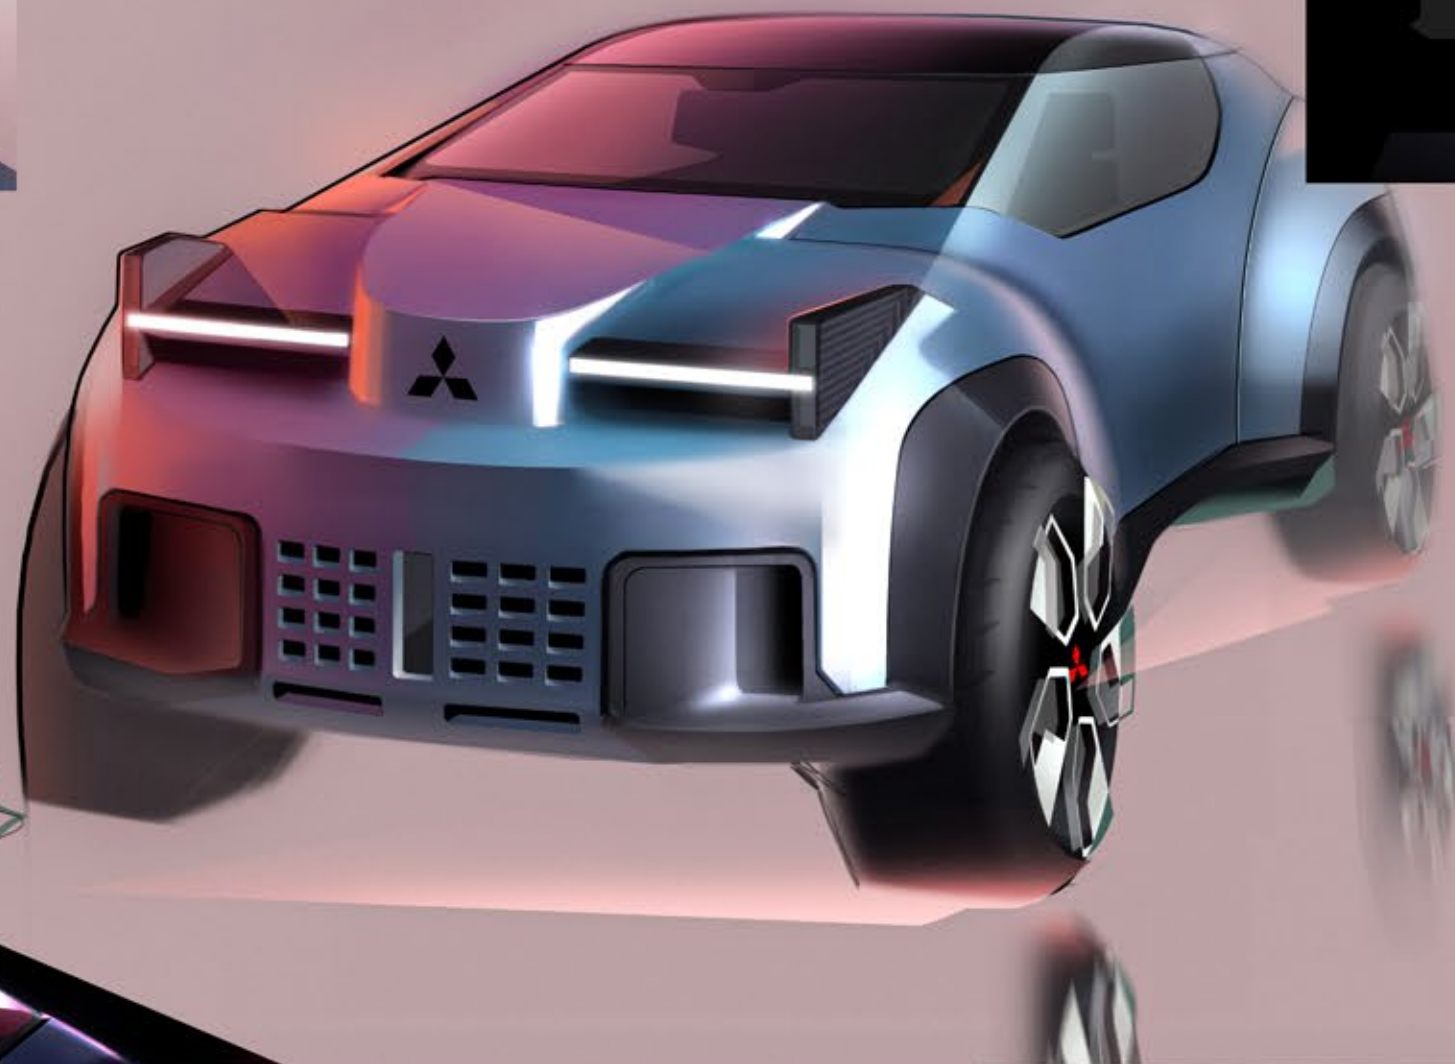

What happens if you apply design elements from the American Malaise Era to a small A-segment SUV badged as a Mitsubishi?

2025

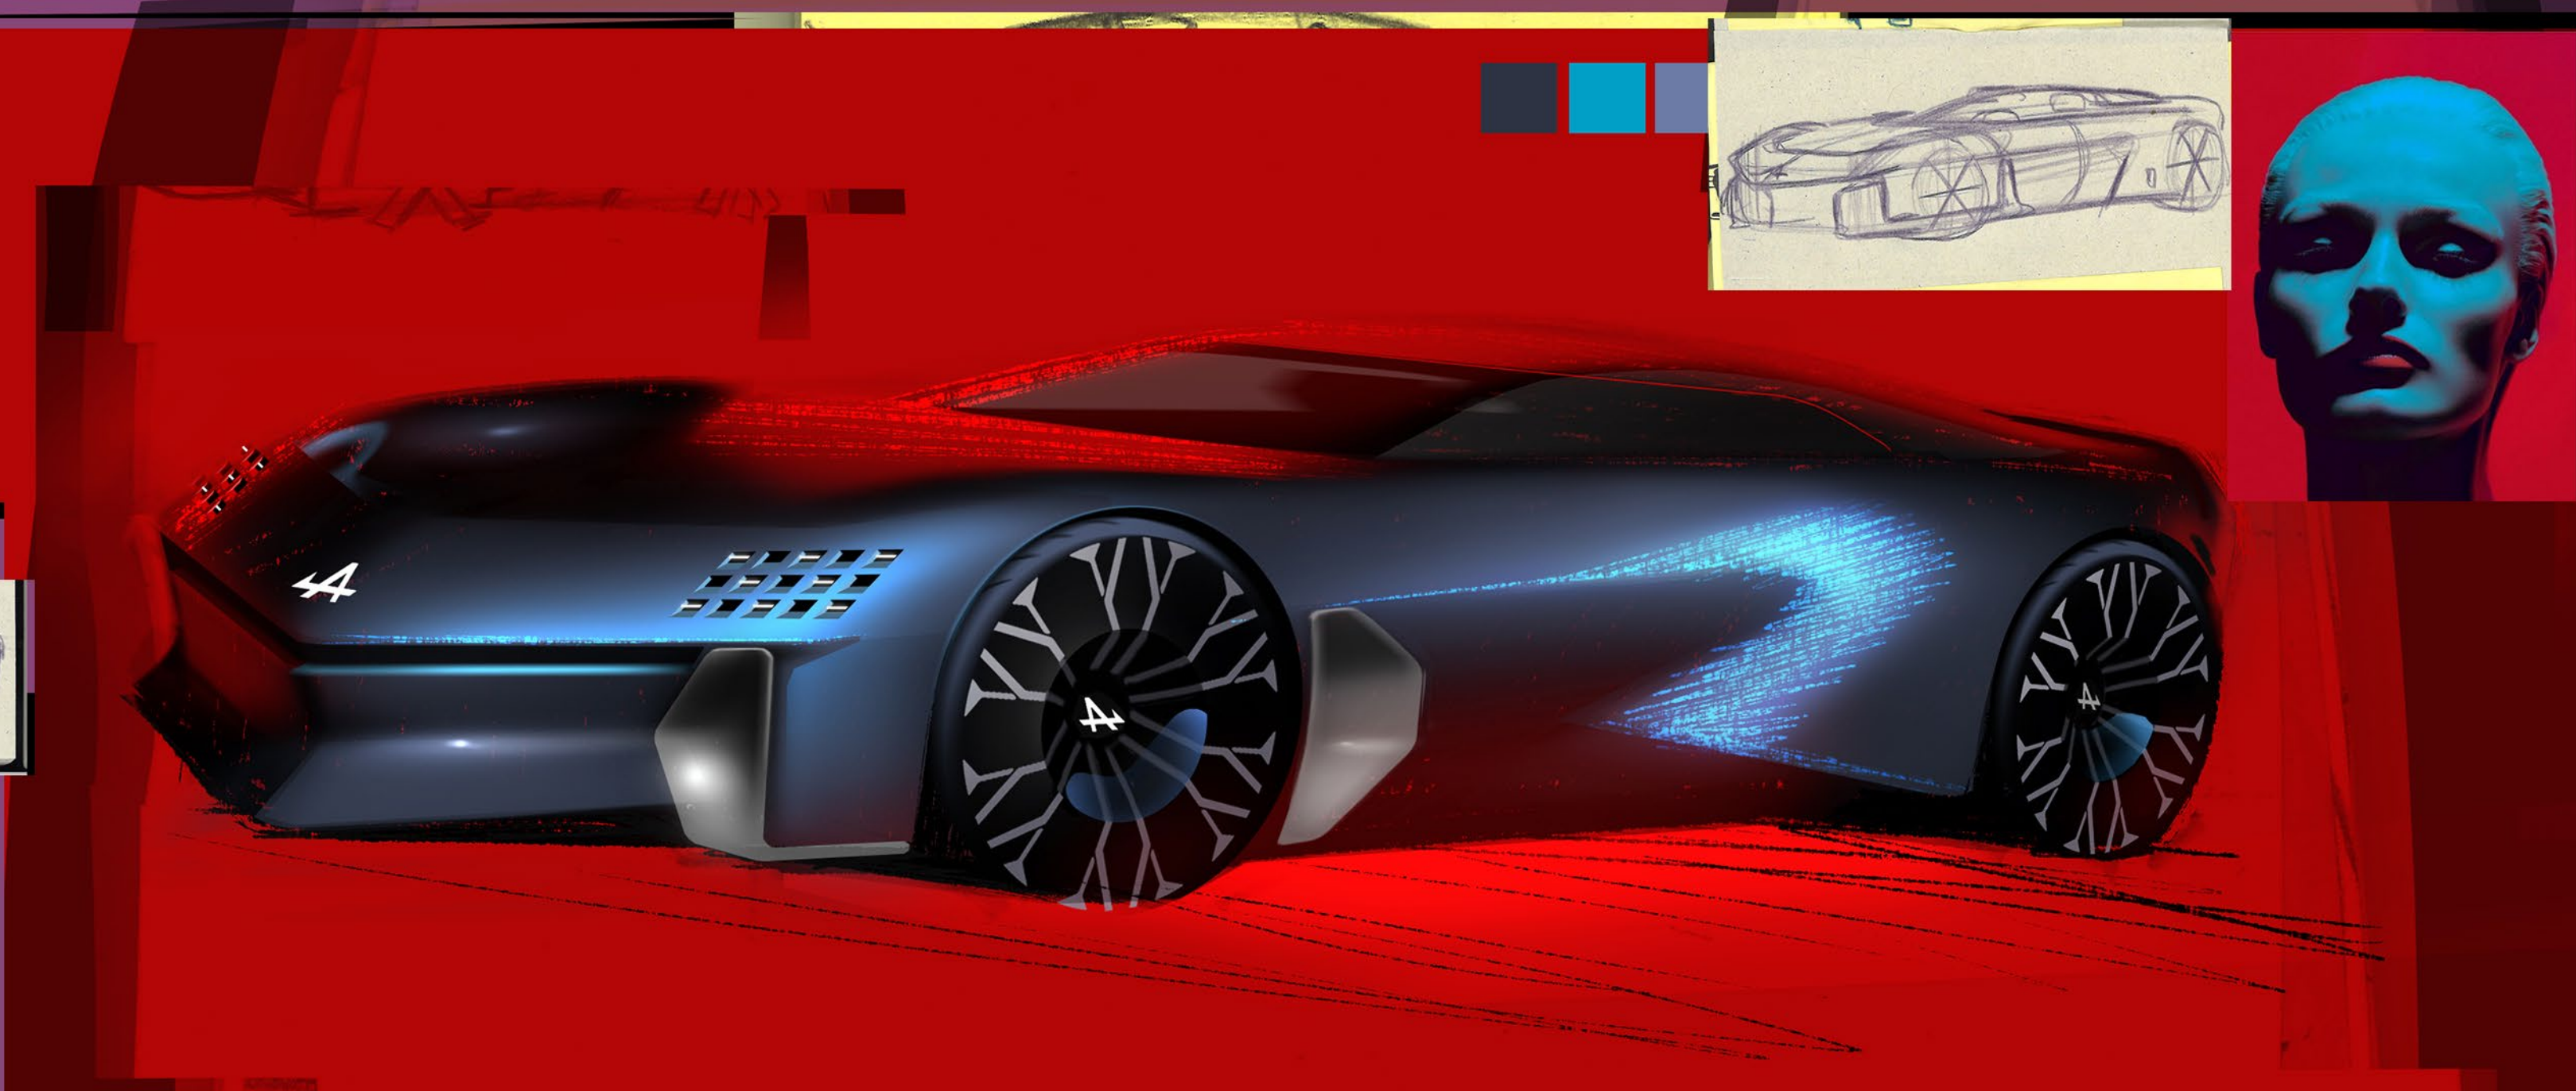

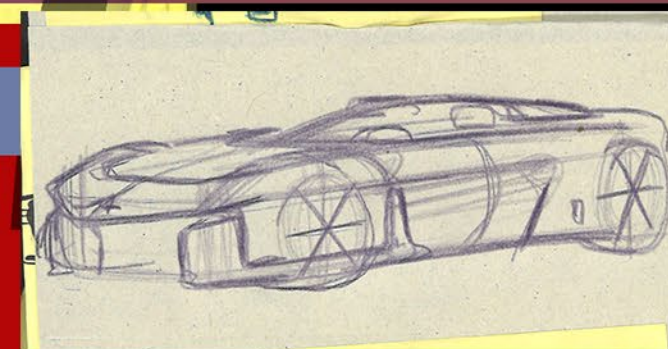

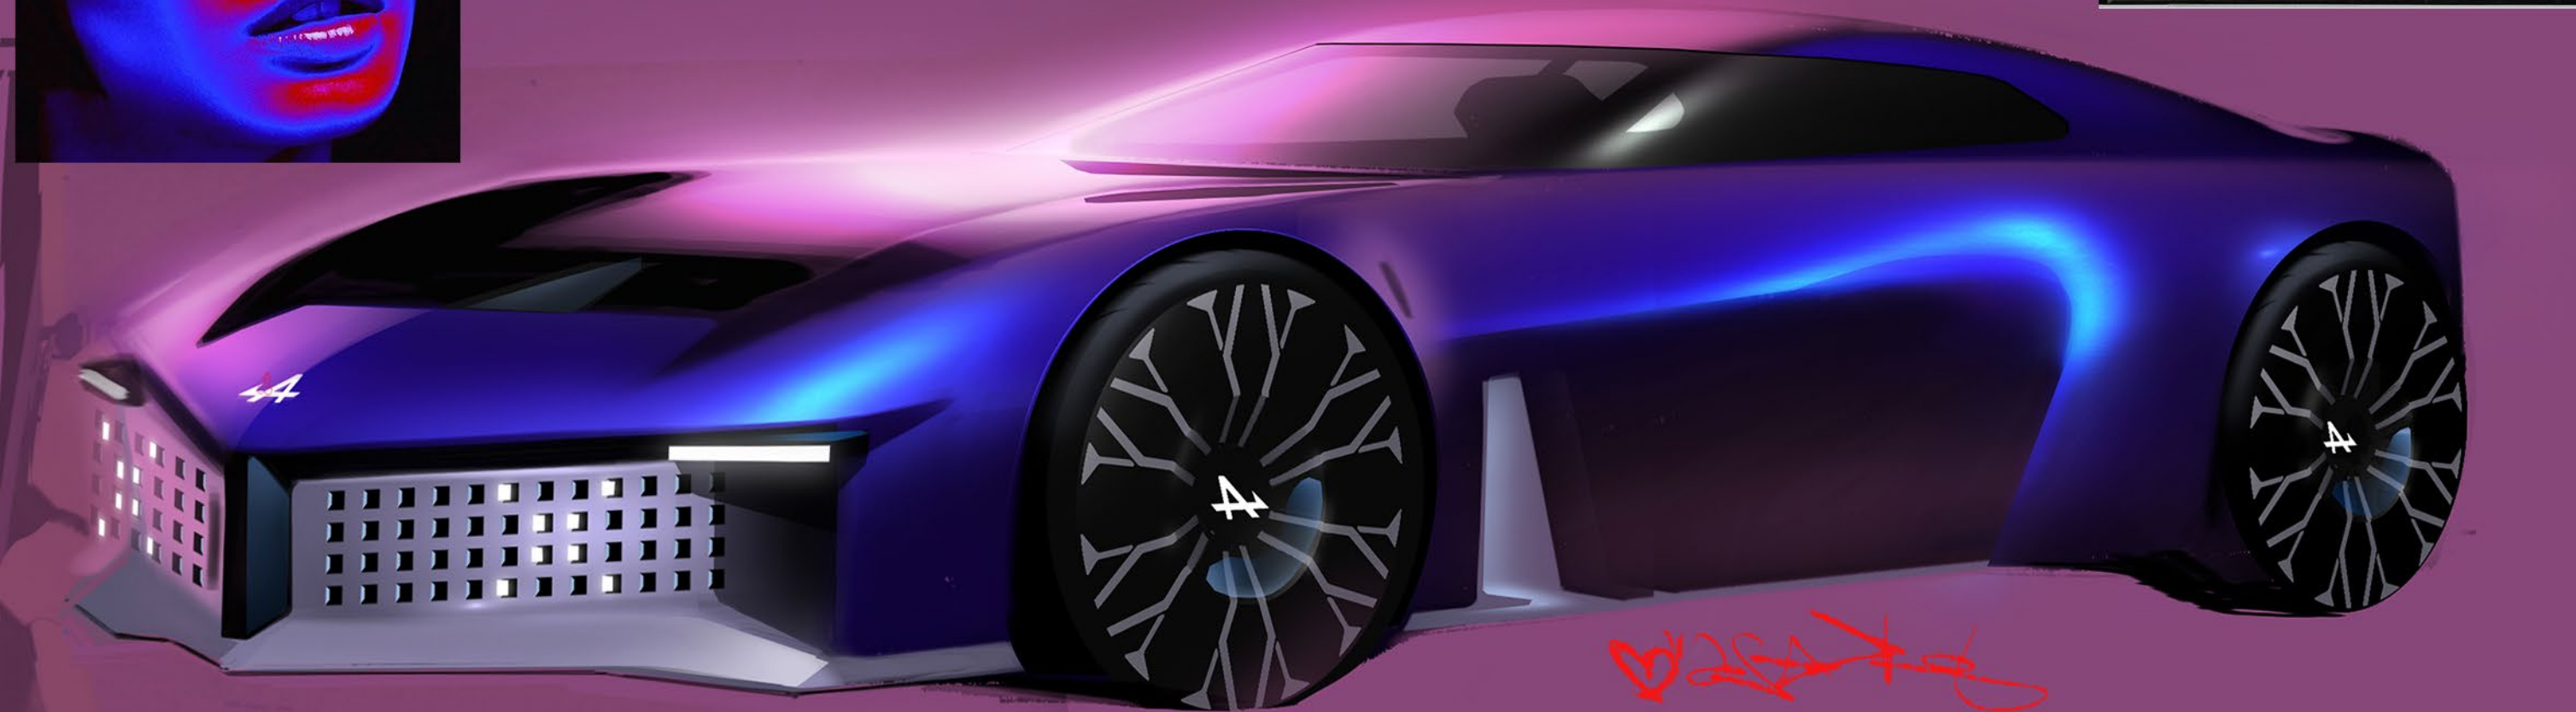

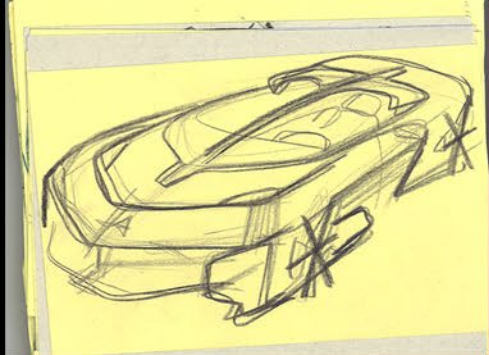

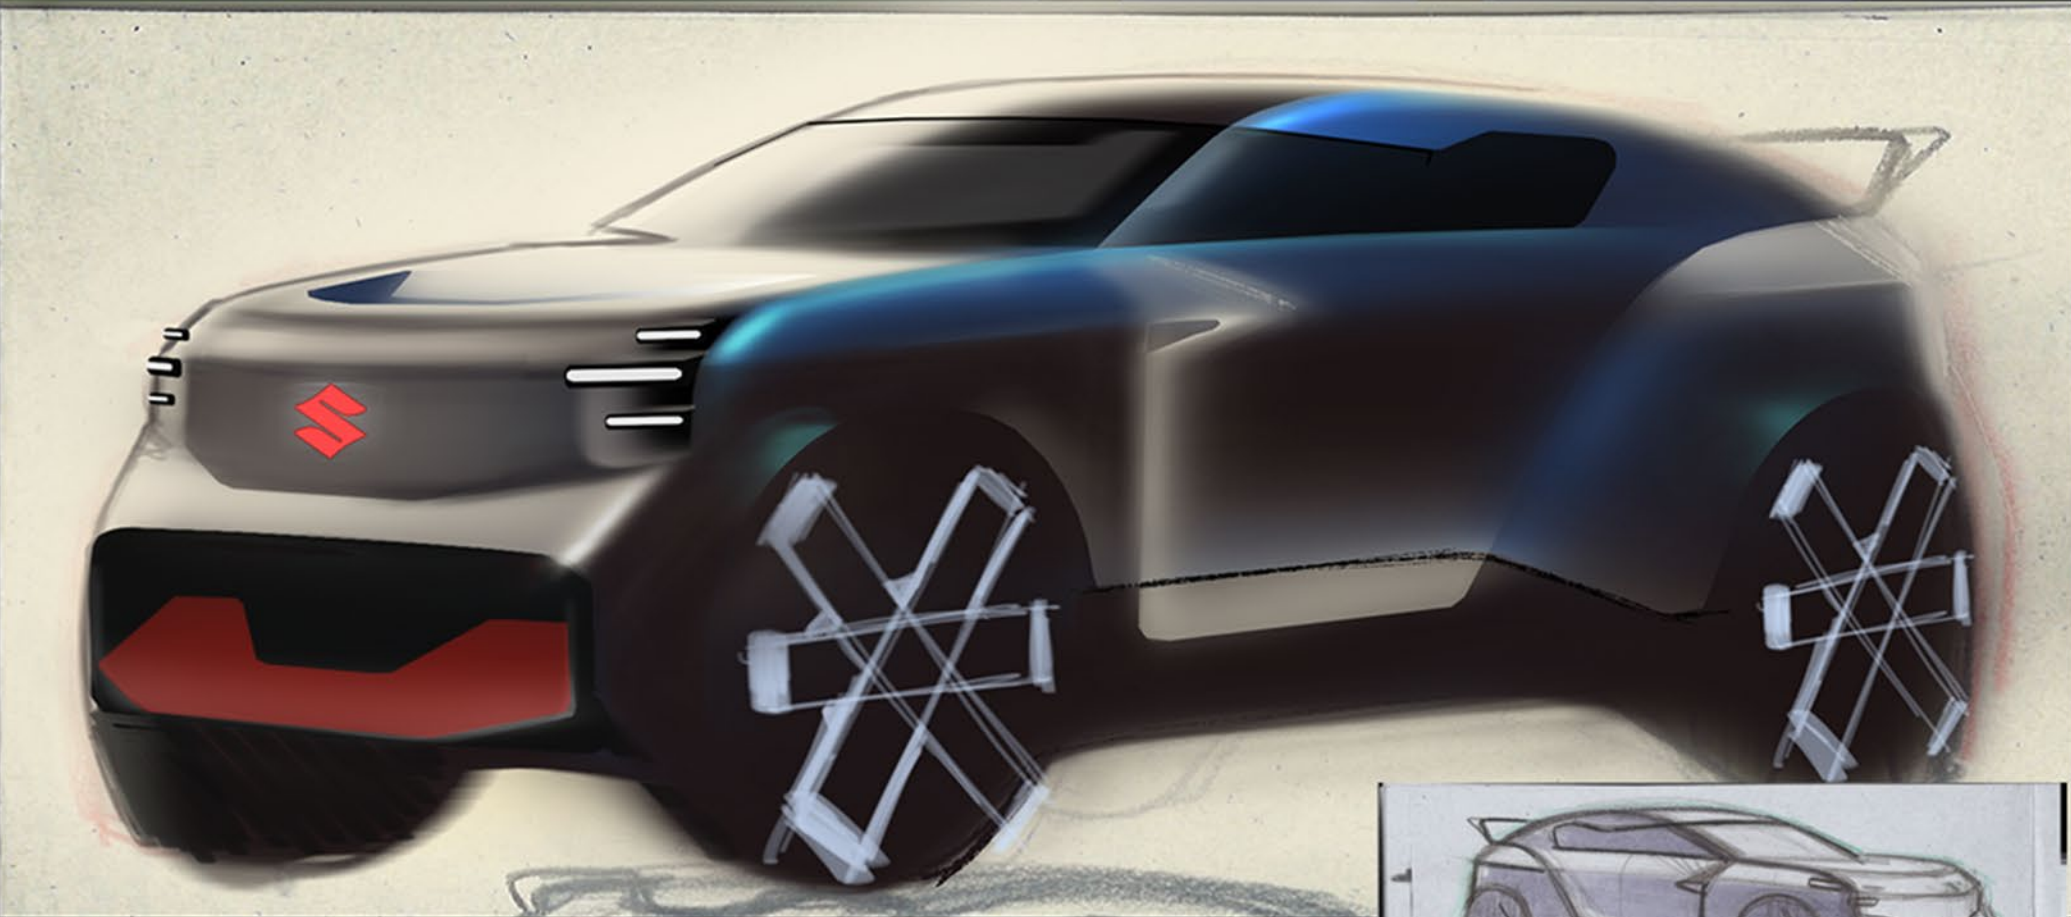

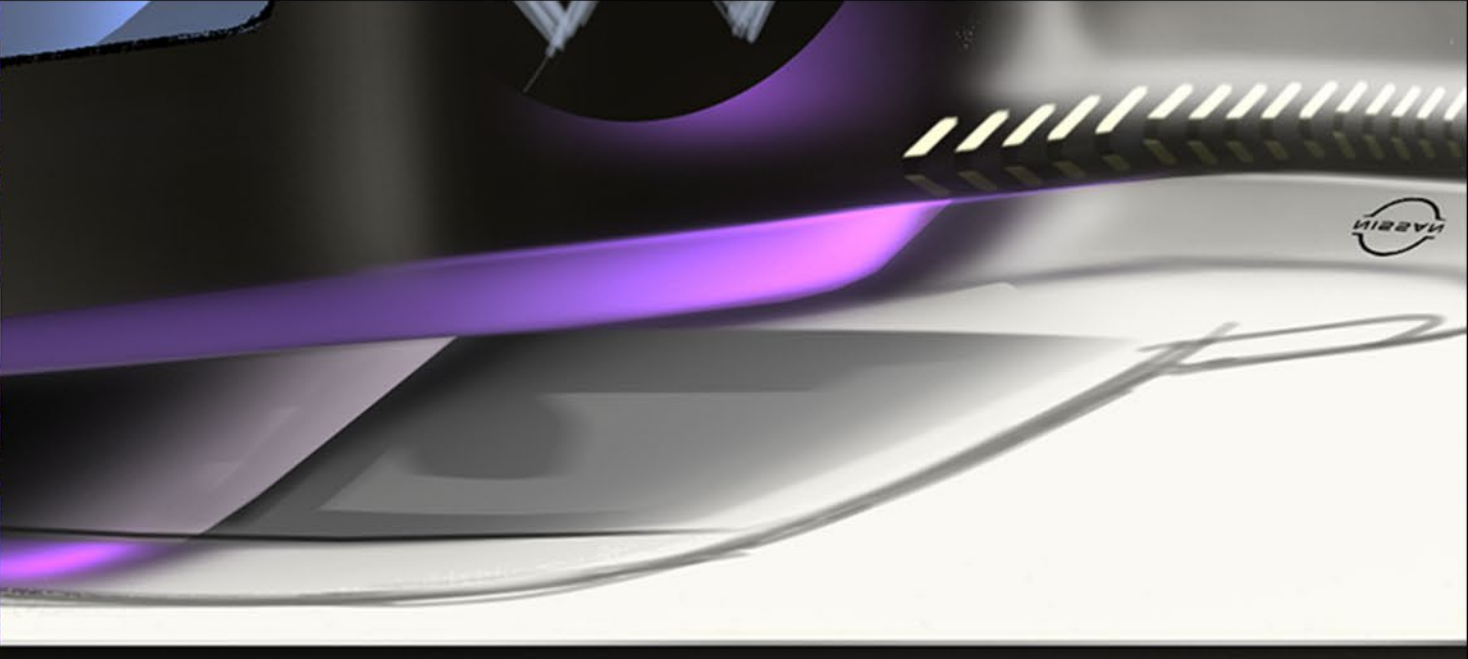

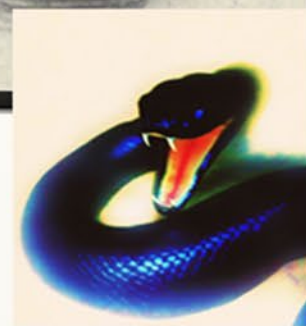

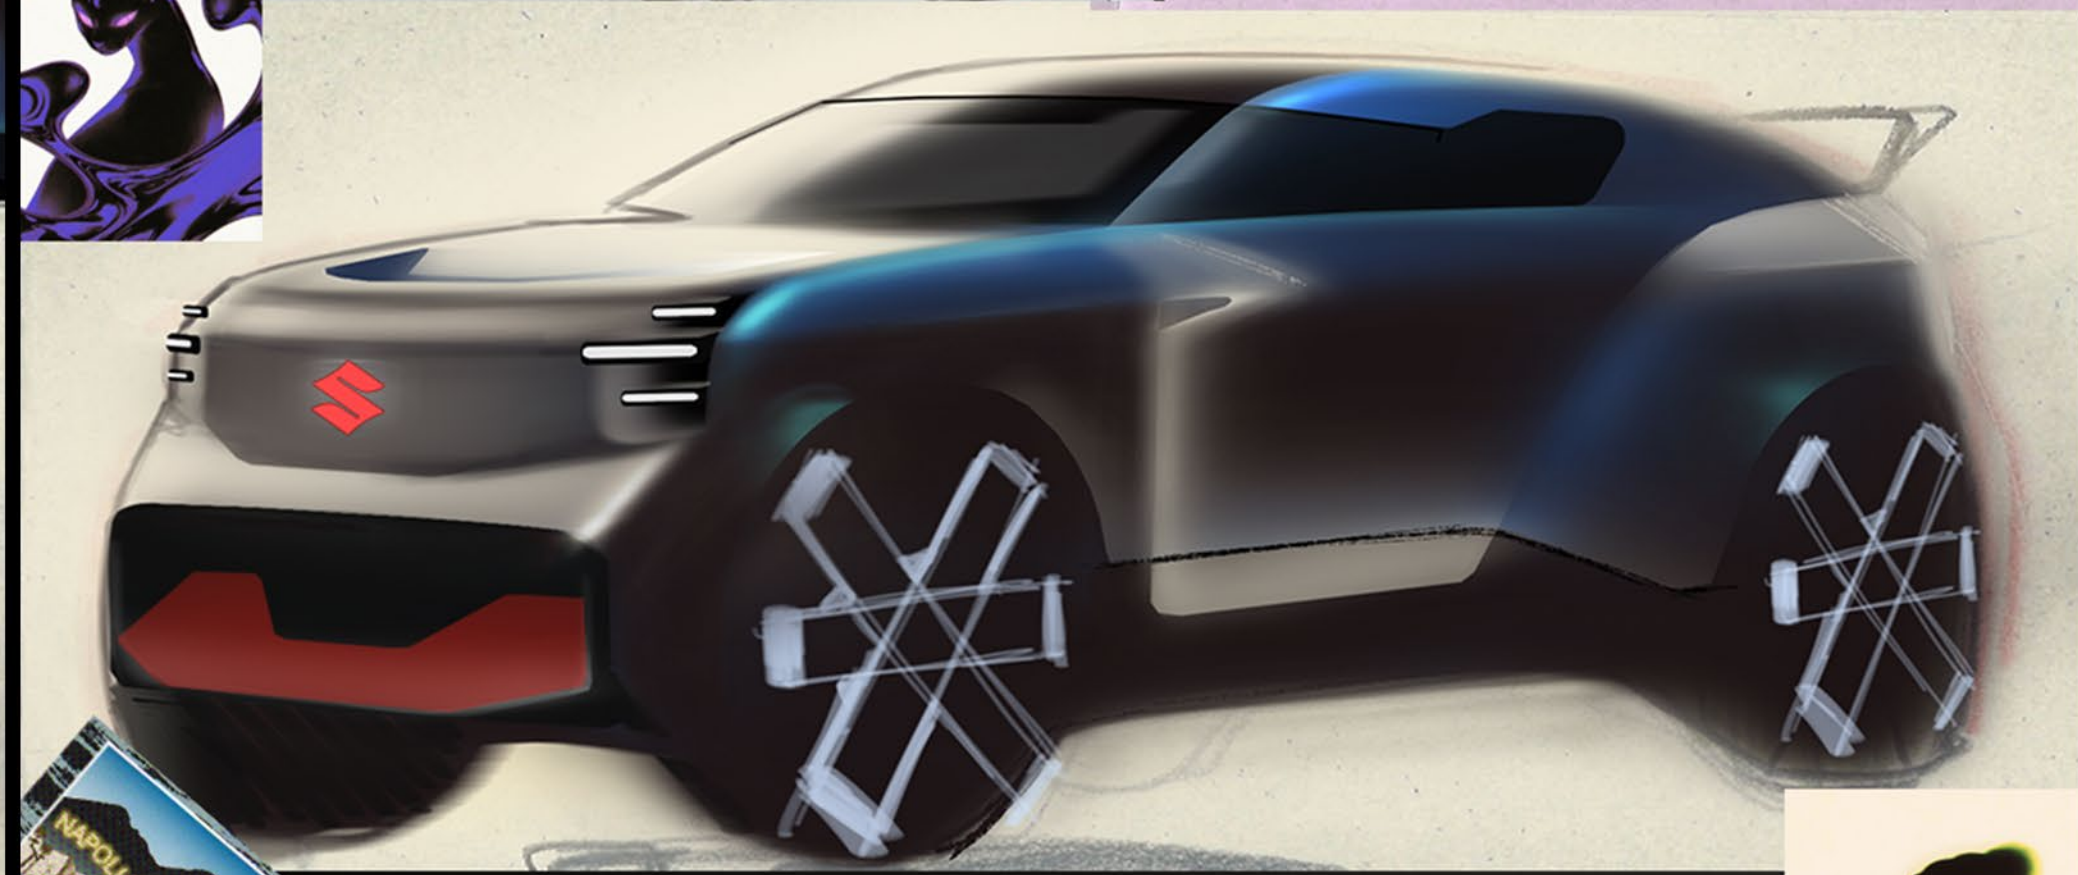

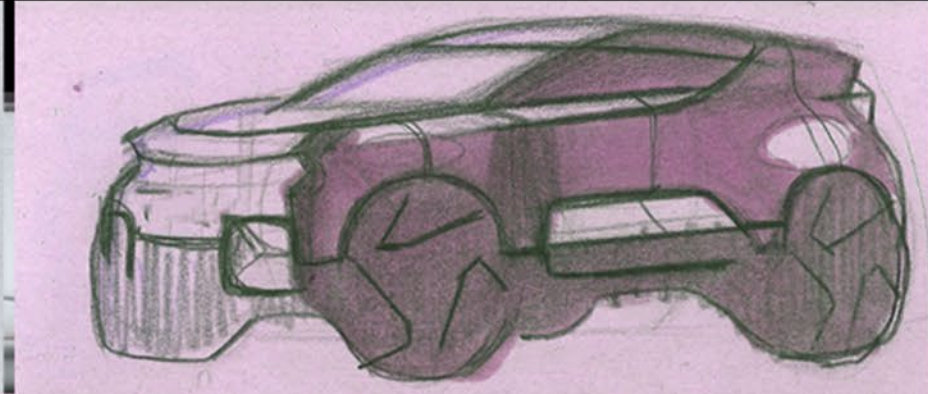

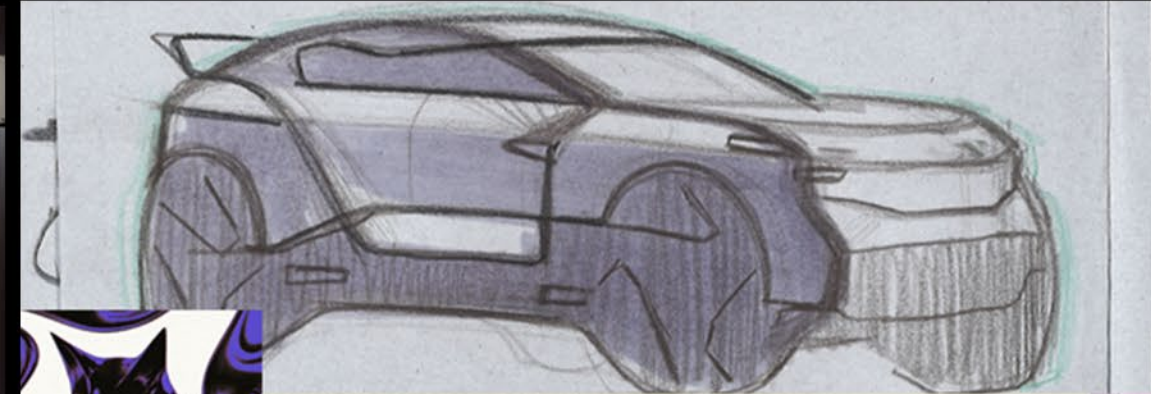

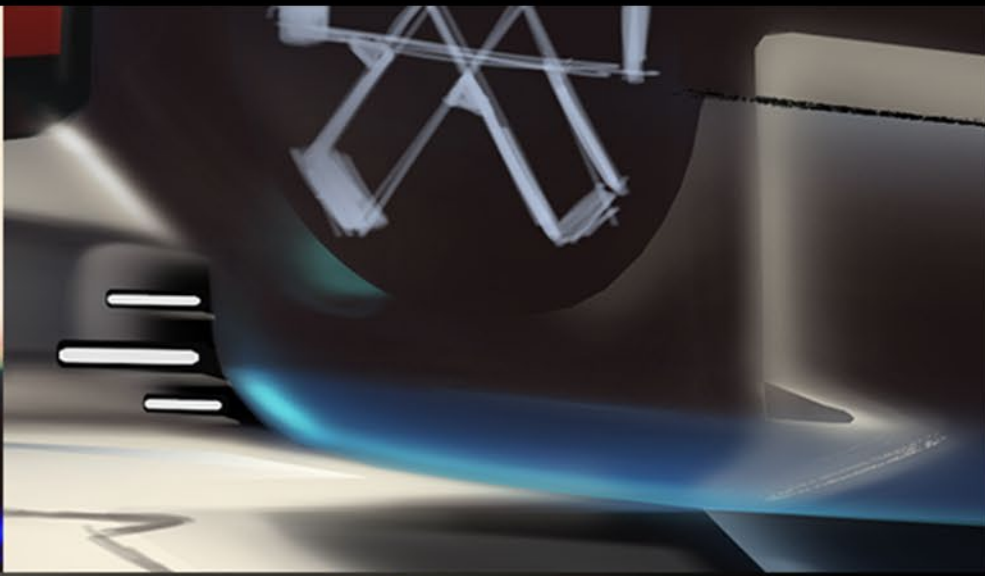

KA15♥

THIS PROJECT CONTAINS:

- D-Segment sedan sketch Research
(How to make a D-Segment Sedan
look like from a segment above)

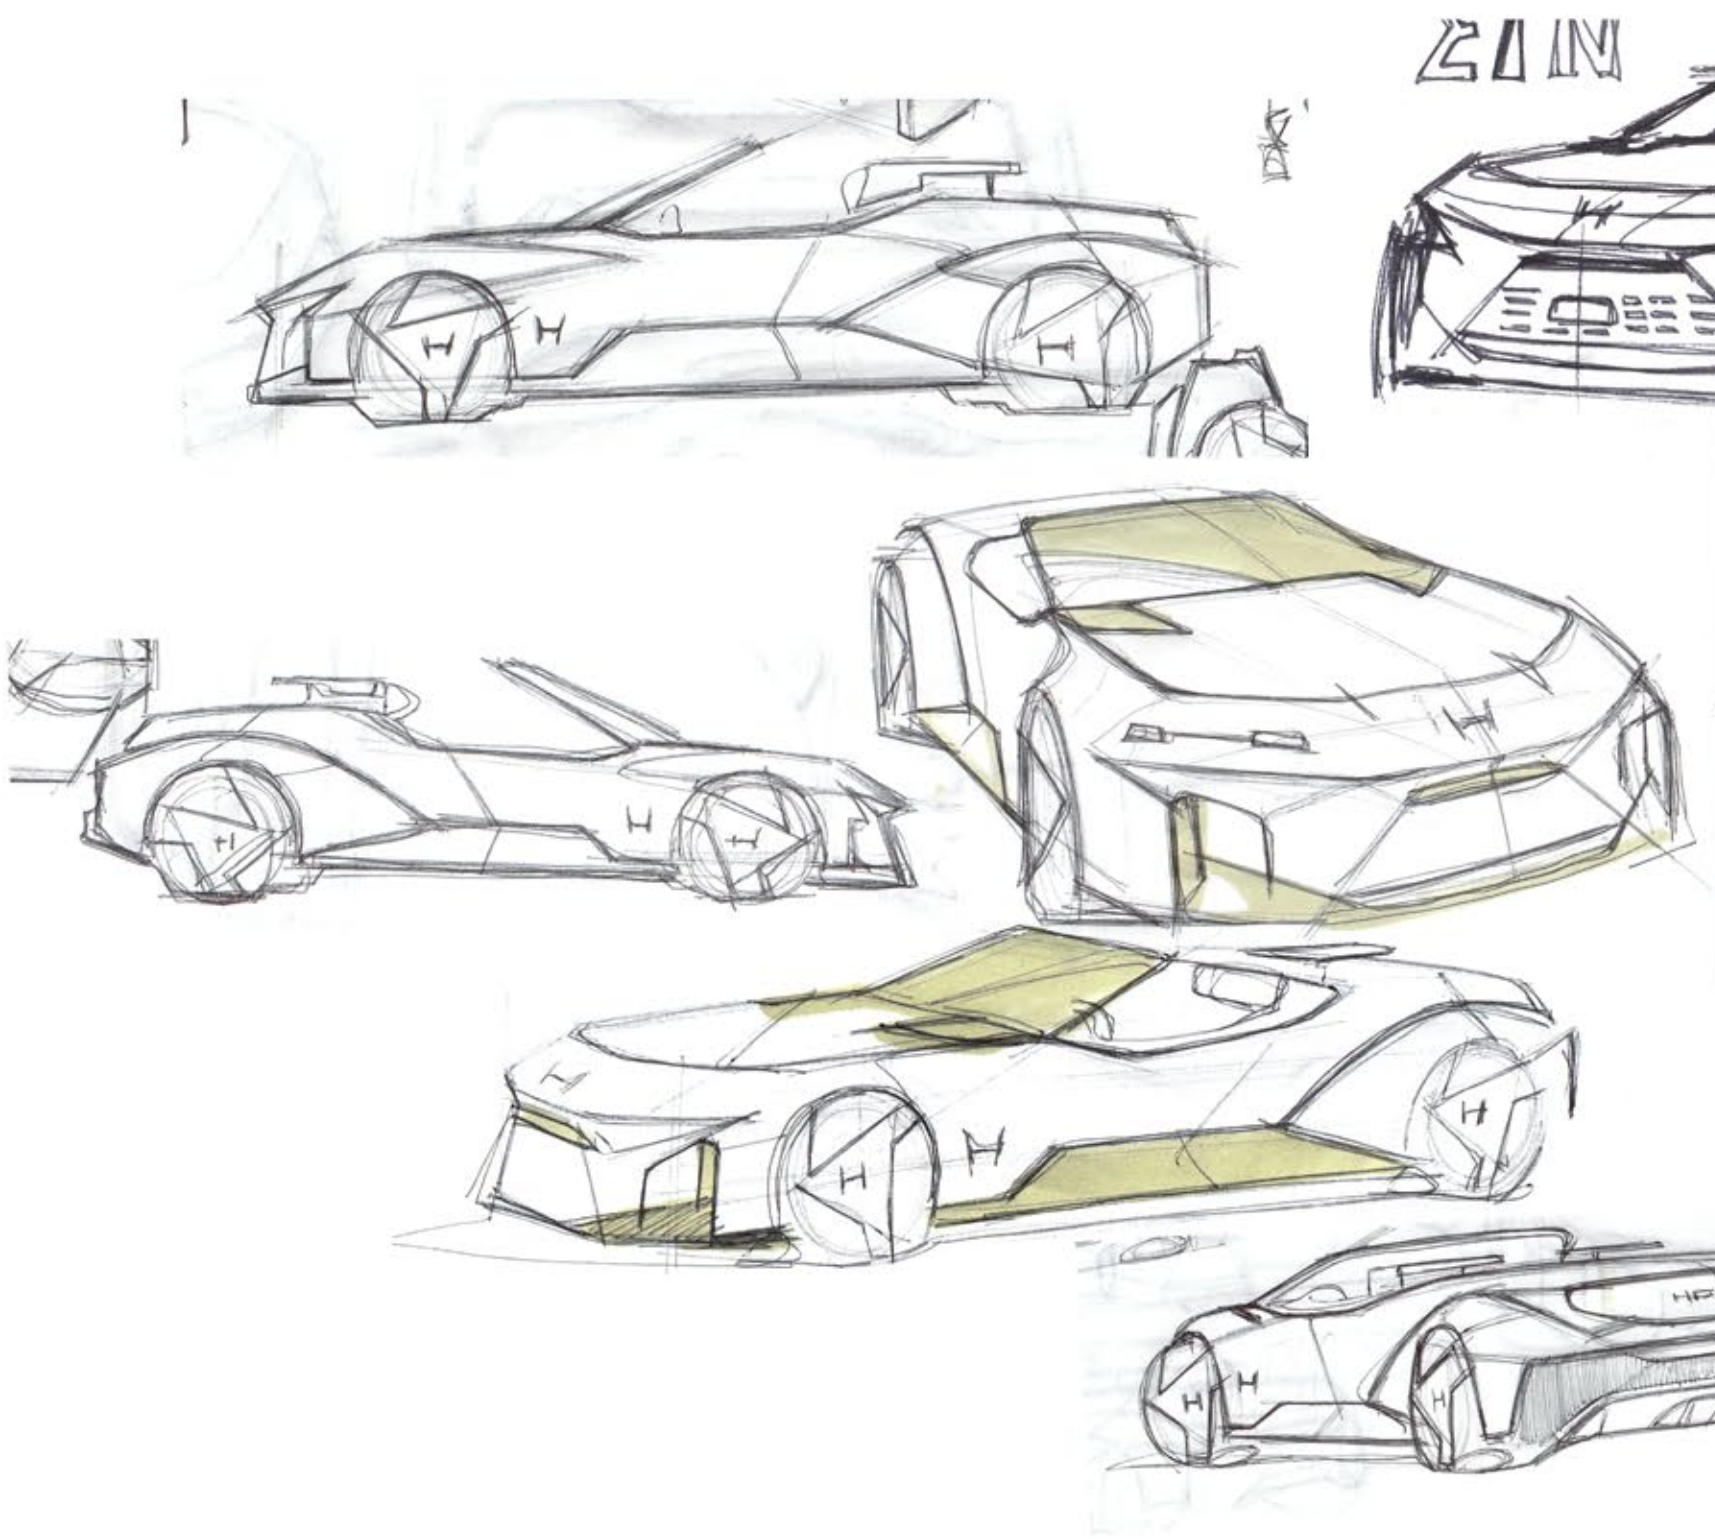

INTERVIEW TO UNLOCK

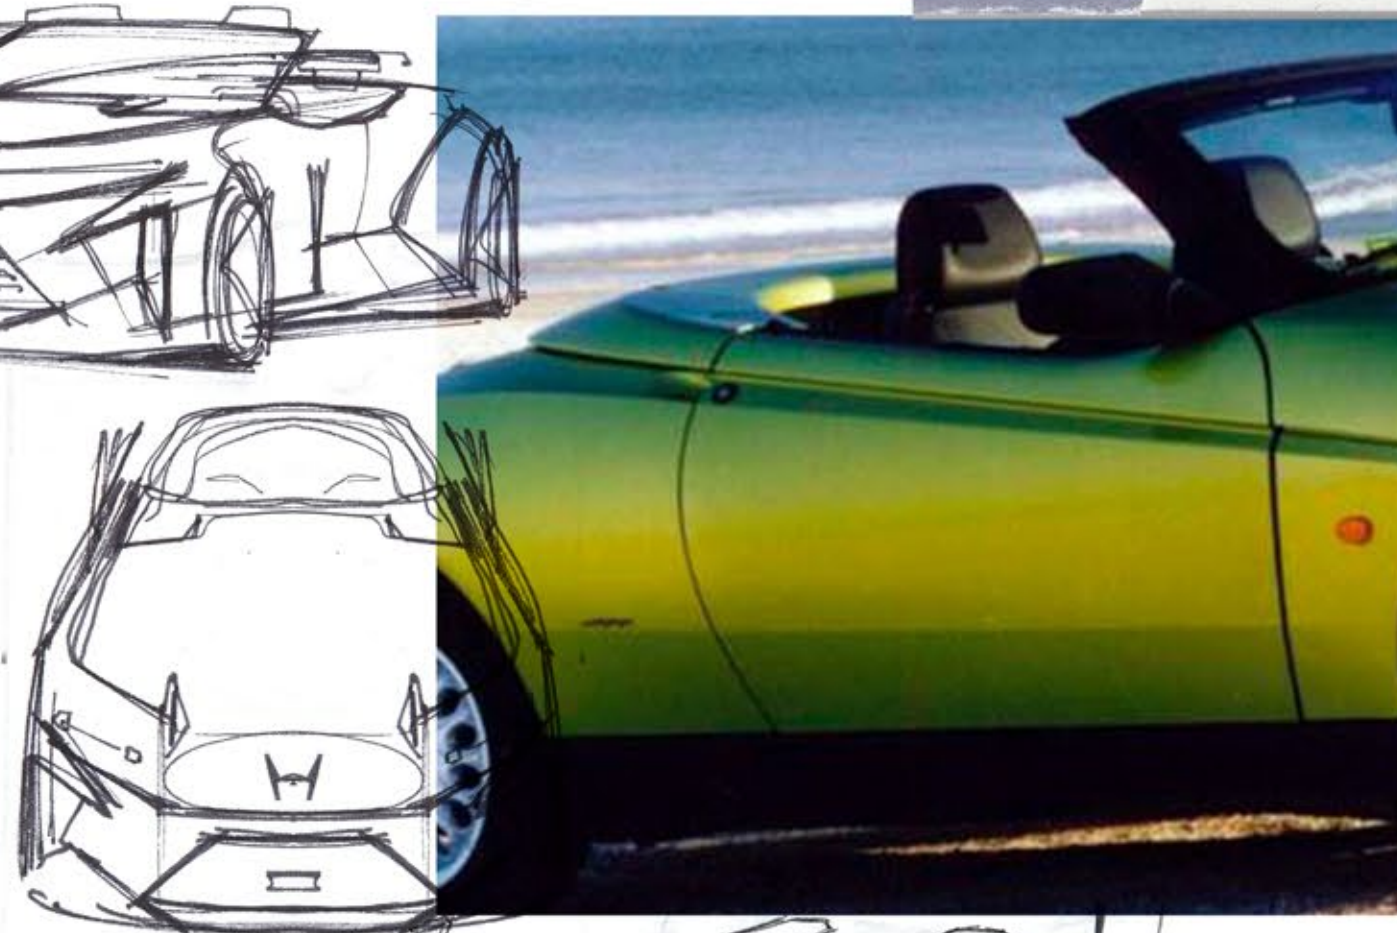

The base idea behind this concept was simple: “What would be the outcome if I take some classic elements from some Alfas designed by Pininfarina and apply those to a Spider badged as a Honda? How can I merge those two spirits?”

Based on the Pininfarina-designed Midsummer's package, the goal was to design something different from the classic Morgan — blending Pininfarina's design language with the peculiar character that defines what Morgan is. This led to the Morgan Breadvan concept, inspired by NASA experimental aircraft, aiming to create something timeless — a design not easily placed within a specific era.

@JEP_CASCO

A stylized, handwritten signature in red ink, appearing to read 'Jep Cascone'.

THANK you!

I hope that through those projects, sketches, colors, all this chaos, I've been able to express my passion for this job. Thank you for your time and attention.

Looking forward to hear from you.

Giuseppe Cascone
